

FEDERAL COAL ADMINISTRATOR NAMED

EFFECTIVE DURING EMERGENCY CAUSED BY PRESENT STRIKE

B. Spencer, New Administrator, Will be Member of the Coal Distribution Committee—Governors of 23 States Active—To See That All Coal is Fairly Apportioned

SUMMARY OF COAL SITUATION (By The Associated Press)

Henry B. Spencer, general purchasing agent for the wartime railroad administration was appointed federal coal administrator.

Chairman Borah of the senate labor committee, conferred with President Harding with regard to the bill proposing a federal commission to inquire into the coal industry.

President Harding it was said at the white house contemplates no new step in the coal strike situation, feeling confident that enough coal will be produced eventually to meet the country's needs.

Secretary Hoover announced the governors of 23 states have undertaken to erect the machinery necessary to control profiteering and the distribution of coal within their borders.

Three coal carrying railroads, the Norfolk & Western, the Chesapeake & Ohio and Louisville & Nashville declared embargoes over their lines against acceptance of any freight except foodstuffs, livestock and fuel.

AVANAUGH RAPS LEWIS BECAUSE OF CLAIM MADE

alls it Gasp of Man
Who Finds Himself
Slipping

(By The Associated Press)
ST. LOUIS, Mo., July 28.—"The oil has not lost the coal strike," lared W. K. Kavanaugh, president of the Coal Operators' association of the fifth and ninth districts of Illinois today, in commenting on a statement by President John L. Lewis of the miners yesterday that "the mine workers have won their strike."

Kavanaugh asserted that Lewis making a statement at Philadelphia yesterday that "to all purposes and effects the mine workers have won their present strike" that industrial and financial circles recognize that no wage reductions can be applied to the mining industry," quoted no financial or industrial leaders.

In his broad generalities Mr. Lewis knows that not only the industrial and financial leaders but rank and file of the population outside the mine workers and their sympathizers know that their welfare demands liquidation of the wartime wage of the mine workers to bring luminous coal produced in unfields and the product of industry dependent thereon to a point where business may proceed in competition with territories already liquidated," he said.

"Mr. Lewis' statement is the sp of a man who feels himself slipping beneath the wave of public disapproval of the uncompromising attitude of the United Workers' leaders toward settlement of the strike by agreements where agreement might be thru the process of collective bargaining and later thru his attempt to treat the president's proposal offering settlement by arbitration and stabilization to the entire coal industry.

"Mr. Lewis knows that he lost chance of a national settlement when he refused the president."

ENTRIES DIES IN
OPERATING CHAIR

CHICAGO, July 28—Dr. Philip Goldstein, who has been a practicing dentist for the past 12 yrs, died today while in a chair in the office of Dr. Fred F. Schwartz an extraction specialist where he had gone for removal of a lower molar. Goldstein died from the anaesthetic administered to him before the operation began to show signs of lapse and died a few minutes after a score of specialists had been summoned in an effort to resuscitate him.

Four Men Trapped in Burning Mine at Ward, Illinois

WOOL SCHEDULE BECOMES FOOT BALL IN SENATE

Neither Side Making
Much Headway on
Final Agreement

(By The Associated Press)
WASHINGTON, July 28—Assaults on the wool schedule of the tariff bill were continued today from both sides of the senate with proponents striking back vigorously and winning out on each of the three roll calls taken during the seven hours session. Discussion was so extended that committee amendments in only one paragraph were disposed of but the senate was ready for a vote on another paragraph at the finish and leaders were hopeful but not confident that consideration of the schedule could be completed tomorrow.

Senator Lenroot, Republican, Wisconsin, created a stir by asserting there was unintentionally concealed protection in the schedule for makers of woolen cloth while Senator Nelson, Republican, Minnesota made a vigorous attack on the wool rates in particular and the whole bill in general.

"This is love's labor lost," Senator Nelson said in summing up.

"We are in hands of the wool enthusiasts."

Onslaughts from the Democratic side were made by Senators Walsh, of Massachusetts, Simons, North Carolina and Pomerene, Ohio. Calling attention that the finance committee majority upon reaching the wool schedule had ceased to make appreciable cuts in rates as it had done with number of other schedules, Senator Simons said wool "was the very keystone" which had bound the Republicans together in a hard and fast compact. That if the rate on raw wool were cut down, "look out for rebellion on the part of the agriculture bloc, look out for the slaughter of your high rates upon the manufacturers of articles."

Confidence was expressed at the white house that production of coal, regardless of rail and mine strikes eventually would be increased to the point where it would be adequate for the country's needs. President Harding felt so on his point that he contemplated no further movement in the coal strike situation.

Secretary Hoover made public names of operators from coal producing districts so far designated as members of the advisory committee which is a part of the federal organization for maintained coal prices and insuring fuel distribution.

Governor's Active.
Governors of 23 states, Mr. Hoover announced, have undertaken to erect the necessary administration to control profiteering and distribution of coal within their borders.

States which have reported steps to set up this machinery, include Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, New York, Pennsylvania, West Virginia, Iowa, Kentucky and Tennessee.

Kansas, Mr. Hoover said, has an establishment under its industrial court law.

The Norfolk & Western, Chesapeake & Ohio and Louisville & Nashville, three railroads which traverse important coal producing sections today reported institution of embargoes over their lines against all freight except foodstuffs, livestock and fuel.

The roads acted, it was said here under the formal announcement by the Interstate Commerce Commission that an emergency existed which impelled it to authorize roads whose normal operations had been affected by the strike to establish priority in certain classes of transportation.

While it was made clear at the white house that the administration supervision of coal distribution would be directed to the end that the fuel supply might be equally divided among all users entitled to consideration it was added that no objection would be made if state authorities went ahead—as has been the case in Indiana and Michigan—with separate efforts to provide coal for the people within their jurisdiction.

"Mr. Lewis' statement is the sp of a man who feels himself slipping beneath the wave of public disapproval of the uncompromising attitude of the United Workers' leaders toward settlement of the strike by agreements where agreement might be thru the process of collective bargaining and later thru his attempt to treat the president's proposal offering settlement by arbitration and stabilization to the entire coal industry.

"Mr. Lewis knows that he lost chance of a national settlement when he refused the president."

BUST OF DR. BLACK
FOR LONDON UNIVERSITY

CHICAGO, July 28—President Walter Dill Scott of Northwestern University in a cablegram sent today requested Ambassador Harvey in London to present a bust of Dr. Green Vardiman Black to London University. Dr. Black who died in 1915 was dean of Northwestern Dental School from 1898 until his death. He was born in Winchester, Scott county, Ill., August 3, 1836 and spent the greater part of his professional life in Jacksonville, Ill.

RESCUE TEAMS ARE QUICKLY AT WORK TO EFFECT RELEASE

Mine is Property of Midway Company—
Superintendent and Three Men Entombed
—Went Into the Mine to Ascertain Cause
Of Smoke—Origin of the Fire Uncertain

(By The Associated Press)
BULLETIN

MURPHYSBORO, Ill., July 28.—The four men trapped in flames in a shaft of the Midway Coal company's mine near Ward, 10 miles northeast of this city when they went down to investigate the fire in the shaft, were rescued late tonight by a mine relief team directed by Frank Rossbottom, state mine inspector of Duquoin, Ill. The last was taken from the shaft shortly before midnight about an hour after the other three had been liberated.

SPRINGFIELD, Ill., July 28.—Four men were entombed in the burning mine of the Midway Mining company at Ward, 15 miles south of Duquoin, and the Duquoin rescue team had been unable to reach them late tonight, according to a report received by State Director of Mines and Minerals, Robert Medill.

Rescue teams from Benton and Herrin were ordered to the mine and a new attempt will be made to penetrate the sections on fire. Mine inspectors from Harrisburg and Christopher also were on their way to Ward.

Three of the men, it is known, are union miners. They are Milo McKown, superintendent; Edward Laughlin and Will Forth, all of Ward.

The identity of the fourth man has not been established.

The entombed men went into the mine at 10:39 o'clock this morning after the blaze had been discovered. It is believed the fire is a flare up from a blaze which started last spring. The section on fire was sealed at that time but it is thought the flames have been driven into other portions of the mine.

Sends Rescue Team.

DUQUOIN, Ill., July 28.—A mine rescue team of 12 men, led by Frank Rossbottom, state mine inspector of this city, departed this afternoon for Ward, 15 miles south of here, where the Midway Coal company's mine was reported to be afame, with four men entombed in the shaft.

Four Men Entombed.

MURPHYSBORO, Ill., July 28.—Four men are known to be entombed in a coal shaft of the Midway Coal company near Ward, 10 miles northeast of this city, 10 miles from here, where a fire broke out this afternoon. A mine rescue team from Duquoin under direction of State Mine Inspector Rossbottom at 9 o'clock made its second attempt to rescue the four.

The four men known to be in the mine are: Superintendent McKown, William Forth, a pumpman; Harry Laughlin, a mine foreman, and Tom Kankelly, an inspector of the mine.

The fire originated at the bottom of the shaft, it was said and probably was caused by spontaneous combustion. The four men were trapped in the shaft after they had descended to investigate the cause of smoke coming from the shaft.

Immediately upon its arrival at

the mine, the rescue team descended but could not locate the four men, returning to the surface after a futile search. A second and third descent was made but no trace had been found of the four men.

Members of the relief team, on returning to the surface after their third trip, expressed fear that the four were trapped behind a cave-in caused by the flames. A clerk at the mine office told an Associated Press correspondent that the team had strong hopes of locating the men in time to save their lives.

While it was believed at first that the fire had been caused by spontaneous combustion theory was advanced after the rescue team had returned to the surface the third time that the fire might have originated by flames which had been sealed up in the mine last February.

UNION MEN WORK
STATE OWNED MINE

(By Associated Press)

PIERRE, S. D., July 28—Forty union men working at the state owned mine at Haynes, N. D., are turning out approximately 150 tons of lignite daily, according to Earl Roush, manager of the mine, who was in conference with J. J. Murphy, state fuel administrator.

The mine is being operated since the first of the month under a special agreement with the miners Mr. Roush said, but he declined to discuss the terms of agreement.

The output will go to supply state institutions.

ARMY PROMOTION
PLAN CONTINUED

(By The Associated Press)

WASHINGTON, July 28.—Retention of the present promotion list of army officers has been recommended to the senate military committee by Secretary Weeks in answer to the committee's request for his views. The secretary's statement, based on the findings of a board of army officers who recently completed ten months' study of the subject was made today by Chairman Wadsworth of the committee.

The board's conclusions were that while there were many cases of plain injustice and numerous instances of "hardship worked by the hurried manner in which the army was increased in the world war" it regarded the single promotion list as "highly important to the efficiency of the army."

FORMER TREASURER
NOW U. S. MARSHAL

Council Bluffs, Iowa, July 28—B. W. Mitchell, former treasurer of Pottawattamie county, will succeed Fred H. Shoemaker as deputy United States marshal for the Southern Iowa district according to an announcement today by United States Marshal Guy Brewster.

M'CORMICK PAYS SENATOR REED FINE TRIBUTE

Says Would be Poor
American if He
Did Not

(By The Associated Press)

WASHINGTON, July 28—Senate tariff debate was halted today while Senator McCormick of Illinois, chairman of the Republican senatorial campaign committee paid tribute to Senator Reed, Democrat who is campaigning for renomination in Missouri. Reed is opposed by Breckinridge Long, who is running with the endorsement of former President Wilson and favors the league of nations. While Senator McCormick did not mention the league of nations issue by name, it was developed in the colloquy which followed his remarks.

Explaining that he was absent last week when Senators Robinson, Arkansas, Stanley, Kentucky, Democrats and Smoot, Republican, Utah, praised Senator Reed's services. Senator McCormick said he wanted to add his tribute. He asserted he probably would have to oppose Senator Reed on domestic issues and added:

States Reasons Why

"I would count myself a poor American and ungenerous if I did not find an opportunity to praise his self sacrifice and devotion. Senator Reed served his country in its hour of danger. He showed himself an indomitable American when the republic was imperiled."

Stating that the Missouri primaries would be held next Tuesday, Senator McCormick said he hoped he would be pardoned for an extended intrusion into Democratic affairs in Missouri. From that primary, he added, it would be learned whether the Missouri Democrats would "choose for themselves" or follow dictation of Caraway's Differ.

When Senator McCormick concluded, Senator Caraway, Democrat, Arkansas said he presumed Senator McCormick referred to Senator Reed's "vicious fight against the four power treaty," and continued:

"I think the country agreed with him (Senator Reed) altho the Senator from Illinois voted the other way."

Senator Stanley, Democrat, Kentucky, concluded the discussion by saying that in any event the sound Democracy of Senator Reed should be commended.

Right of Re-Hearing

Another section would concede the right of the strikers to a re-hearing before the railroad labor board on the wage issue and another would bind the railroads to set up regional adjustment boards, while a fourth would require abandonment by railroads of contracts with "outside" shops for repair work.

President Harding was understood to have suggested a compromise on the question of seniority rights by which all men retained their former privileges, so as to rank just behind the men who did not walk out July 1.

The strikers, under the plan would return to work at the scales set by the board in its decision of July 1, which precipitated the strike, but without prejudice to either side when the matter was brought up for re-hearing.

Jewell Enters to Chicago

B. M. Jewell, leader of the striking shopmen and international officers of the railroad unions on strike left tonight for Chicago announcing that the general strike committee of each organization would convene there Tuesday to consider the president's suggestions.

T. DeWitt Cuyler, chairman of the Association of Railway Executives and principal spokesman of the management announced last night that the executives would meet in New York on the same day for the same purpose.

It is expected that preliminary conferences will be held by each group in the endeavor to formulate programs for consideration by the general sessions. The general strike committee of the unions ordinarily consist of a representative of each craft in each railroad system where the strike is in effect.

Hoover May Attend

It was understood that Secretary Hoover might attend the railway executives sessions in New York, representing the administration and there was a possibility that Secretary Davis might attend the union gatherings.

Mr. Davis left tonight for Mooseheart, Ill.

Apparently the president's proposals will go before the railroad employees with their recommendation of the international union officers favoring acceptance. It appears improbable that the railroad executives would have the same favor recommendation from their spokesmen whom the president had seen.

RAILROAD MANAGERS AND LABOR LEADERS WILL MEET TUESDAY

To Consider Proposals for Settling the Rail Strike as Presented by President Harding
—Managers Meet in New York, Employes Envoys in Chicago—Other Rail News

SUMMARY OF RAIL SITUATION (By The Associated Press)

President Harding drew up proposals to settle the shopmen's strike after conferences with union leaders and railway executives.

The shopmen's executive committee will meet in Chicago next Tuesday and the railroad executives in New York to consider the president's suggestions.

Striking shopmen of the Baltimore & Ohio railroad refused to accept the railroad's proposal for a separate agreement.

Denison, Texas, was placed under martial law as the result of strike disorders. Reports of violence increased as the fourth week of the strike ended.

COAL MINE IS OFFERED STATE BY ITS OWNER

Illinois New Fuel Director Checking up Available Supply

(By The Associated Press)

SPRINGFIELD, Ill., July 28—Robert M. Medill's administration as state fuel director opened today with an offer of a coal mine from Lewis P. Fisher, owner of a mine at Cantrall, near here.

Mr. Fisher offered his entire mine to the state of Illinois to operate as the state desires.

The mine was working recently with a few non-union men, but it was closed because someone threw bricks at his miners, Mr. Fisher said. His offer suggested that coal was dug from his mine to supply state institutions. The offer was placed on file by Mr. Medill.

The new state fuel administrator returned late this afternoon from Benton and has not laid any plans as yet for rationing coal he said. His first act will be to check up on the amount of available coal in Illinois in compliance with a request from Herbert Hoover to ascertain the supplies of fuel on hand. He expects to ask for reports first from public utility companies, then governmental institutions, wholesalers and large industries.

is a part of the Constitution itself, an amendment to that effect having been adopted last year. The example of New York could be followed with profit by other states. Few things will add greater stimulation to the Americanization movement than compulsory knowledge of the language.

There are said to be 50,000 applicants for the military training camps of the country, with accommodations for only 27,000. This means that military trainings is looked upon with more enthusiasm in many localities than here in Morgan county. The list of applicants from this county is very small indeed.

THE ARROGANCE
OF LEWIS.

It anything was needed to give the public the thought that some definite solution of the mining question must be found, it was furnished by the arrogant statement of President Lewis. He virtually challenged the government of the United States to take any further steps in the matter, and referred to the action already taken as a farce.

This does not mean that the miners are all wrong or the operators all right. Both are probably wrong. It does mean that the situation has become insufferable from the public standpoint, that the public must stand idly by while miners and operators fight and disagree month after month, and then pay the bill.

"BEASTLY
DRUNK."

You have used the expression, "beastly drunk." What does it mean? You never saw a beast drunk.

"Beastly drunk" is an old expression. It started in 1576 from a book written by George Gascoigne. The book has this curious title: "A delicate Diet for daintie mouthed Droonkardes, wherein the fowle Abuse of common carowning and quaffing with harrie Draughtes is honestlie ad-monished."

All this was 346 years ago. It took a long time to get prohibition.

If you wonder what human nature was like in 1576, and would compare it with the present, read this classification of drunkards written by Thomas Nash, English satirist, shortly after Gascoigne published his book:

"The first is ape-drunk, and he leaps and sings and howls and danceth for the heavens.

"The second is lion-drunk, and he flings the pots about the house, breaks the window glass with his dagger, and is apt to quarrel with any man that speaks to him.

"The third is swine-drunk, heavy, lumpy and sleepy, and cricles for a little more drink and a few more clothes.

"The fourth is sheep-drunk.

K. C. PICNIC PLANS
ARE OUTLINED

Second Annual Event Will Take Place On State Hospital Grounds Thursday August 10.

Knights of Columbus of council No. 686 are preparing for their second annual picnic. This event is scheduled for Thursday, August 10, and will be given on the grounds of the Jacksonville State hospital. A committee from the council was fortunate in arranging last night with Dr. E. L. Hill for the use of a portion of the grounds on the picnic date. The location makes certain that a great throng will be in attendance.

Lunch will be served at noon and during the afternoon and even hours. Fried chicken and burgoo soup will be only a part of the offerings. In addition, entertainment features will be provided including a ball game and athletic sports. There will be dancing both afternoon and evening, and a musical program will furnish general entertainment.

The chairman of committee named last night were: General chairman—John W. Clary.

Publicity—Thomas Duffner. Refreshments—John T. Roach. Dancing—John Fogarty. Chicken fry—E. A. Brennan. Burgoo soup—J. A. Hosp. Athletics—Carl Hamilton. Entertainment—J. V. Kennedy.

Chairman of Ticket Committee—
C. F. Seales.

Levi F. Walker, long time resident
of Loami, and known here, died at the
home last Saturday. He is sur-
vived by his wife and three sisters.

Funeral services were held at Loami

Christian church Tuesday in charge
of Rev. W. F. Huff of Ipava.

The Fred E. Deatherage Milling
Co. shipped a car load of flour, the
first ground from the new wheat, to
Peoria last week.

The Star store is planning to put
on something different in the way of
sales, calling it the 2-bit, 4-bit, 6-bit
and 8-bit sale, and having many
items on sale for those amounts from
August 1st to 6th.

Miss Bessie Turner arrived last
Saturday to visit her parents, Mr.
and Mrs. H. L. Turner. She has
just returned from a trip to Alaska.
After spending a few weeks here
she will return to Spokane, Wash.,
to resume her school work.

Fred L. Lipton of the Girard Ga-
zette was a caller here Wednesday.

Mr. and Mrs. J. T. Dorris and
children left Tuesday in their auto
for a visit with relatives at Harris-
burg.

Miss Edna Glass of Monmouth has
been employed as a teacher at a

W. T. H. S. faculty at a salary of
\$1,500 per year, to take the place of
mathematics teacher, made vacant
by the resignation of Miss Rose

Kessig.

Mr. and Mrs. B. Reinbach of De-
catur were callers in the city last
Sunday, having come from Loami,
where they were visiting their daughter,
Mrs. Richard Fisher.

Miss Alice Bell and Mrs. Westlake
motored down from Springfield Friday
and were accompanied home by
Mrs. C. C. Courtney and Mrs. A. S.
Carter, who had spent a few days
here.

Mr. and Mrs. Ralph Rodgers of
Springfield, visited here Monday at
the home of the former's father, S.
W. Rodgers. They had just returned
from a two months' auto trip to California.

Rev. and Mrs. J. W. Allen visited
in Edinburg Tuesday and Wednesday
and were accompanied home by
Mrs. Clyde Allen of Chicago, who re-
mained until Thursday.

Mr. and Mrs. Eugene Blair were
callers in Jacksonville Tuesday.

Mrs. L. F. Seales was hostess to
the Priscilla club Thursday.

Mrs. I. H. Cox and Misses Stella
and Lucille Rodgers were Springfield
visitors Tuesday.

Mrs. Wilson M. Smith went to
Peoria Thursday for a few days' visit
with friends.

Mrs. Jennie Chiles of Chicago is
spending the week end with her sis-
ter, Mrs. D. C. Calhoun.

Charles Turner of Godfrey came
last week for a short visit with rela-
tives, the Curtiss families.

Miss Helen Hart of Jacksonville
spent the week with her parents, Mr.
and Mrs. D. B. Hart.

Misses Frances Sissons and Edna
Moffet of Modesto spent Monday
the guests of Miss Ethel Carter.

The M. M. C. club girls will have a
home cooking sale at Boyd's grocery
Saturday.

Mrs. Bert McCracken and sons,
Wilson and Albert, went to Jackson-
ville Thursday for a visit with relatives.

James DeLong was seriously in-
jured Sunday afternoon when at-
tacked by a bull while crossing a
pasture.

Mr. and Mrs. Grant Reissor and
family returned home Monday from a
week's outing spent at Piasa

Chautauqua.

Spanish Onions
10c Pound
FOOD CENTER

LEFT FOR HOME

Mrs. James Capps and baby son
who have been visiting for the
past month at the home of Mrs.
Capps' parents, Mr. and Mrs.
Nelson McMurphy, left last night
for their home in Toledo, Ohio.

turned in the best scores for the two days during which the tryouts were made.

The Springfield team will arrive early Sunday morning and will look over the course, and be ready for the contest which will start at two o'clock. The visiting team will be made up of Norman Walton, the Bunn Park, "Pro" Walter Reed, Springfield champion, June VanSise and John Conlon. Jack Keywood, who will captain the local team, said that our men "were as strong a bunch of local talent as we ever got together."

This match is the first of a series of two. A return match will be played on the Bunn Park course later in the season. The match will be free and the local people are expected to turn out in great numbers as they will learn a lot and enjoy the sight.

The proof of what a good team we have to offer is illustrated by the following scores which were made in the try-outs; A. M. Masters, 34 out and 39 in; Marcy Osborne, 35 on nine holes. Flood is also playing a very good game. Jack Keywood played what on the score cards is perfect golf, making 32 on nine holes. He made each hole on par, the strokes per hole being: 3, 4, 3, 3, 4, 3, 4, 4.

Match This Afternoon

The Illinois Steel Bridge Co. golf team will meet the Cloverleaf Insurance Co. team in an eighteen hole match, on the local course this afternoon.

A match was played between the two teams last Saturday, resulting in victory for the Bridge company, two up. Last week there were four men on each team, while today there will be seven.

The Cloverleaf team will be composed of: R. Y. Rowe, C. Y. Rowe, C. A. Goodale, Hackett Wilder, John Larson, Walter Killian and Dr. Clamptt.

The Bridge company team will include: Neison McMurphy, G. W. Beadles, James Flynn, F. M. Foley, Wilbur Jeffries, Arthur Connelly and Frank Mathews.

The playing of this match will start at two o'clock.

NOW IN CHICAGO

Hugh Green and Harold Green left Thursday for Chicago where they will meet Miss Lena Hopper and return with her in her car, after a few days. Miss Hopper has been taking a six weeks summer course at Northwestern University.

CHICAGO WHITE SOX

BUY THIRD BASEMAN

Cairo, Ill., July 28—Eddie Taylor, local third baseman and premier infielder of the Kitty League has been sold to the Chicago White Sox, N. W. Cox, president of the Cairo club announced this afternoon. The purchase price was not made public. Taylor will report to Chicago next week.

A. C. Hyde made a trip from Meredosia to the city yesterday.

WORRY FOR MOLLA Must Defend National Tennis Crown

MRS. MOLLA BJURSTEDT MALLORY, NATIONAL CHAMPION (CENTER), MARY BROWN (LEFT), MAY SUTTON BUNDY (RIGHT).

BY BOB DORMAN

California is determined to wrest from the east the laurel wreath of the women's singles championship, now resting on the brow of Mrs. Molla Bjurstedt Mallory.

Mrs. Bundy, better known to the majority of tennis fans as May Sutton already has held the title once, while Mrs. Mary K. Browne took down the honors three successive years, in 1912-13-14.

Miss Helen Wills is the young player from San Francisco who was the sensation of the tourna-

ment play of last season.

She swept thru the eastern courts like a meteor, and many expert followers of tennis would not be surprised if she were to carry off the stellar honors of this year's championship play.

The winner of the women's championship will have her name inscribed on the Wissahickon cup, which now bears the names of Mrs. George W. Wightman and Mrs. Franklin I. Mallory.

To that end the California lawn tennis association has announced thru its president, Dr. Summer Hardy, that Mrs. May Sutton Bundy, Mrs. Mary K. Browne and Miss Helen Wills

will be sent east to compete in the play which will begin Monday, August 14, on the grounds of the West Side Tennis Club, Forest Hills, Long Island.

Mrs. Bundy, better known to the majority of tennis fans as May Sutton already has held the title once, while Mrs. Mary K. Browne took down the honors three successive years, in 1912-13-14.

MARKET MAINTAINED
FAIRLY STRONG TONE

By Associated Press.

NEW YORK, July 28.—On
broader dealing today's stock
market maintained a fairly strong
tone the first half of the session,
but eased irregularly later on
realizing sales of the usual
week-end charter. Sentiment in
trading circles obviously was en-
couraged by advices indicating an
early termination of the rail and
coal strikes. Another favorable
development was the publication of
additional June statements by
important railway systems, which
would otherwise be consummated
Hesitation in industrial circles
was followed by a development of
doubts regarding supplies and costs of coal while
producing capacity in some leading
lines cannot be utilized to the
extent that had been previously
foreseen.

Buying of representative in-
dustries seemed to be largely of
a technical character, that is to
say covering of short contracts.
In fact the large percentage of re-
cent dealings has been of a profes-
sional nature. The lack of so-
ciated public buying has been at-
tributed to the unsettled labor
uncertainty.

Studebaker continued to be
sold by "shorts" and some sec-
ondary motors registered conces-
sions as a result of conflicting
reports relating to conditions in
that industry. Total sales ap-
proximated 700,000 shares.

There was little demand for
call money, which opened and re-
mained at 3½ per cent, declined to
during the noon hour and held
at that figure until the close. Es-
timates of brokers loans show an
expansion from the decline of two
months ago. This is ascribed, in
part to heavy borrowings by pool
operators.

Another slump in German
marks probably contributed to
their lower tone of foreign ex-
changes. The Berlin rate fell to
17½ hundred, a new low record.
Sterling gained slightly over
yesterday's final rates. Liberty
bonds made further cancellations
of recent gains.

WARNS ABOUT STOLEN TRAVELERS CHECKS

Local bankers have received warning from the Nebraska Bankers association stating that men are going thru Illinois cashing stolen travelers checks. Warnings are given to garages, restaurants and merchants with reference to these checks, which were issued by the First National Bank of Chicago, and were stolen by bank robbers who blew the vault of the Bank of Staplehurst, Neb., several weeks ago.

The Nebraska association offers a reward to any one who lends material aid in the capture of the robbers. The numbers of the travelers checks are as follows: No. A 482351 to 482360; No. A 513501 to 513560, \$10 each; No. B 515031 to 515060, \$20 each.

Mr. and Mrs. Henry Detner of Chapin were among the city arrivals yesterday.

PROSPECTS GOOD FOR LOCAL OIL FIELD

OPERATORS SANGUINE OVER POSSIBLE DRILLING RESULTS

C. F. Rhodes Told Rotarians Outlook Is Promising—No Mystery In Operations and Public Is Welcome—A Few More Leases Needed—Frank Byrns Brought Operators Here.

There is promise of the development of a real producing oil field near Jacksonville. C. F. Rhodes told members of the Rotary club at luncheon Friday. Mr. Rhodes associated with A. L. Moorehead, has leases upon some Morgan county acreage and is now sinking a well on the Mahon farm northeast of the city.

Mr. Rhodes in beginning his interesting talk yesterday, told the members of the club that he had come to this city in response to the invitation of Frank Byrns, who thru a period of years has maintained his interest and hope in a possible oil development in this county. If a field is developed it really should have the Byrns name.

The actual work of drilling a well on the Mahon farm began several days ago and Mr. Rhodes said yesterday that he expects to shoot the well next Monday afternoon.

All In the Open.

One thing that impressed the Rotarians and others who have met Mr. Rhodes and Mr. Moorehead is that they say there is no mystery about the oil business so far as they are concerned. They have come into this county ready and willing to spend enough money to put down a number of wells in order to test out the field. They have no stock to sell and are not asking for any capital. All they do wish is to secure a few more leases in order to make their holdings profitable if a field should be developed.

Men who are drilling have instructions, Mr. Rhodes said, to answer questions from any body living in this locality who asks them, and as the operator expressed it, the gate to the property is open and the public is invited to visit the site of the wells as often as they please.

When the well is ready for shooting an announcement will be made so that as many people as wish to may assemble for the sight, which is unusual in this locality.

Mr. Rhodes expressed his surprise yesterday that there had been no further test in Morgan county after the wells were put down eleven years ago. However, he said that some understanding of the fact that operations were not pushed further at the time might come because crude oil at that time was at a very low price a barrel and so a small barrel production did not represent profit.

Small Well Totals.

Later Mr. Rhodes quoted figures to show that about half of the total oil production of the world today comes from wells of small size. The total is of course augmented by the great gushers but without small well production would fall to a figure 50 per cent below the present total. Altho Mr. Rhodes is a man of many years' experience in the oil business, he has never before been interested in Illinois territory, having come here from Tulsa, Okla.

He told Rotarians of the recent development in Centralia. A number of years ago an oil field was located there but within recent weeks a new one has been opened and a 300 barrel well was brought in Wednesday. "That means," said Mr. Rhodes, "that people are camping in the streets of Centralia today. You people here in Jacksonville will have the surprise of your life if the oil field opens up and develops in the way that we are expecting.

A few producing wells of good size would double the population of Jacksonville in sixty days. Some records much more marvelous than that have been made in the southwest, where the great producing wells have been located. Occasionally I have found a man here who has said that development of an oil field would bring in undesirable citizens, but let me tell you it would bring business. It would bring people who spend money freely and all of you would benefit. Property values would leap upward in the city and the same would be true of farm land located within the area of the field."

Work of Geologists.

The opinions of geologists are given much more weight nowadays in oil field development than was the case in earlier years, Mr. Rhodes said. "I think that fully 85 per cent of the wells drilled are on the advice of geologists. As I said, the wonder to us is that with the showing made in the wells a few miles east of this city that there has been no development of the field in the following eleven years."

"We really believe that you men here in Jacksonville have passed up a good thing while possibly investing your money in enterprises away from home not half so promising. However, I know it is true that at the time those wells were put down that crude oil of the kinds was worth about 80 cents a barrel or about one-third of its value at the present time."

"There are three productive oil sands, the Pennsylvania, the Niagara and the Trenton, and we intend to put a well down to the deep sand. The first wells we drill will be of the shallow type but our plan and purpose is to go to the deep sand. It will cost money but we are willing to spend that money if assured of a reasonable acreage of leases."

"While oil men look for gushers, the small producing wells will pay. A well drilled 1,500 feet if it produces 16 barrels a day at a \$1.50 market will prove a

profitable investment. We do not profess to know just what we are going to find here in your home county, but we are enthusiastic about the prospect and are going to sink our money in finding out just what is down beneath the surface of your soil."

An Interesting Career.

Mr. Rhodes, who is a southerner by birth, speaks with a pleasant accent and is his presentation of local oil possibilities was enlivened with various apt stories and sprightly comment on various phases of life and general business.

Mr. Rhodes by the way, is a very interesting person. He had some newspaper experience in his earlier years and his associations with the oil business is of such long standing that he has located various fields and has had abundant experience in the drilling of wells.

One field in Oklahoma bears his name. That he has prestige and standing with well known companies is indicated by the fact that representatives of at least a half dozen of these companies will be here in the course of a few days to note the indications when the first well is shot.

Mr. Rhodes' business operations have not been confined to the United States, as he has very often been abroad and has the record of having crossed the Atlantic ocean thirty-eight times.

In the war period he spent several years overseas and was in charge of a factory producing artificial limbs.

Altogether Mr. Rhodes' address yesterday was one of the most interesting that Rotarians have heard in many a day. They caught something of Mr. Rhodes' enthusiasm and are very confident that if an oil field is opened in Morgan county that everybody in Jacksonville will benefit in a financial way.

The guest list of the day included J. W. Sands of Oakland, Calif.; Dr. A. E. Obermeyer, Arcadia; H. K. Chenoweth and little Margaret Caldwell, of Jacksonville.

SUCCESSFUL CHICKEN FRY AT GRACE CHAPEL

Large Number Enjoyed Fried Chicken and Other Good Things at Annual Grace Chapel Chicken Fry Last Night.

A record breaking crowd was in attendance at the annual chicken fry at Grace Chapel Friday evening. Serving began at 4:30 o'clock and continued until a late hour in the evening when the supply of eatables was entirely exhausted.

The general committee in charge of the arrangements included Mrs. Goldie Brainer, Mrs. Hatzie Ogle, Messrs. Newton Bourn, Harry Ogle and Harry Barber. Assisting them were a large number of the members of the congregation and to their hearty cooperation is due a large part of the success of the event.

The menu was a tempting one, served cafeteria style and included fried chicken, baked chicken, roast beef, country boiled ham, mashed potatoes, brown gravy, salad, baked beans, slaw, cottage cheese, cake, pie, ice cream coffee and iced tea.

The buckster stand did a thriving business during the evening and was in charge of Mrs. Lottie Barber, Harry Brainer and Radford Miller.

Quite a large sum was realized from the affair and will be used in making interior and exterior repairs and improvements at the church.

CONSIDER AMPLIFIER FOR CHAUTAUQUA USE

J. W. Sands of the Magnavox Co. of Oakland, Calif., was in the city yesterday in consultation with Frank J. Heim, president of the Jacksonville chautauqua, with reference to the possible installation of voice amplifiers for use during the chautauqua.

E. H. Gray of the Jacksonville Railway & Light Co. and Mr. Heim both had some correspondence with the company. Amplifiers have not often been used for outdoor gatherings, but the company has perfected an attachment which makes the outdoor use feasible.

If an amplifier is not secured this year it can be counted as one of the possibilities of a later assembly.

WILL VISIT IN FRANKLIN

Mrs. F. W. Reuther of St. Louis arrived in Franklin Friday afternoon for a visit with her mother, Mrs. Charles Glenn and her sister, Miss Dorothy Sargent. Mrs. Reuther, who is postoffice inspector in charge, with headquarters in St. Louis, has been called to Washington, D. C., for an indefinite stay and Mrs. Reuther decided to visit with her mother during his absence.

SHOPMEN STATE THEIR POSITION

QUOTE STATEMENTS OF B. M. JEWELL IN EXPLANATION OF ISSUES OF THE STRIKE.

The local committee of railway shopmen receives from time to time the letters issued by B. M. Jewell as president of the railway employees' department relating to the strike situation. The following statements are made in a recent communication from Mr. Jewell:

On July the 11th, the executive Council Members were requested to meet Chairman Hooper of the United States Railroad Labor Board for the purpose of considering the possibilities of harmonizing the differences between the Executives of the Carriers and the striking employees. The following was considered as a basis for negotiation:

(1) That the Carriers which had arbitrarily changed the wages and working conditions of the employees represented by said seven organizations, by means of the contract system and piece work, etc., in violation of the Railroad Labor Board's decisions should discontinue this practice.

(2) That a National Board of Adjustment be created by agreement, between the carrier and these organizations with authority to handle all disputes for all shop craft employees except those affecting wage rates. The seven disputed rules to be promptly submitted to the Adjustment Board for decision.

(3) That the employees involved in the strike proceed in conformity with the Transportation Act, to secure a rehearing of the wage decisions.

(4) The Carriers to withdraw or dismiss all lawsuits growing out of the strike.

(5) All men now on strike, those laid off, furloughed or on leave of absence to be returned to work and to their former positions with seniority and other rights unimpaired.

There are three principal issues now preventing a possible settlement of the railway controversy, which are found in the refusal of the railway executives: (1) to discontinue contracting out of work; (2) to establish a National Board of Adjustment; (3) to continue seniority rights of employees who suspend work. The position of the employees on these three issues is summarized as follows:

(1) Contracting out work:

The Labor Board has decided: "If the carrier can legally do the thing which has been done under these contracts, then the entire Transportation Act can be nullified and the will of the Congress of the United States set at naught. If one class of employees can thus be taken from under the application of this act, there is no sound reason why each and every railroad employee in the United States cannot be given like treatment."

By this process the Erie Railroad has contracted out every one of its car and locomotive shops, the larger roundhouses and all track work.

(2) National Adjustment Board:

The Labor Board has described the Boards of Adjustment as "an essential part of the machinery to decide disputes between the carriers and their employees."

The Labor Committee of the Association of Railway Executives in a majority report recommended National Boards of Adjustment. Vice-President Atterbury of the Pennsylvania made a minority report stating:

"It is clear to us that National Boards of Adjustment mean National Agreements. Our duty is clear. Make no contract whatever with the labor organizations."

The reasons why the employees desire one National Adjustment Board are briefly:

1. Conditions of shop work are practically the same in all sections of the country and the character of work is the same. Car and locomotive repairs are the same and must be made in about the same manner everywhere.

2. Uniform national rules have been promulgated by the Labor Board.

3. If these rules are interpreted and applied differently by different Adjustment Boards, a mass of conflicting cases eventually would be presented to the Labor Board.

4. Since uniform interpretation and application is desirable and will be the result of final decisions by the Labor Board, it is inefficient to establish several intermediate Boards who will create inharmonious rulings which the Board must harmonize.

5. Regional Boards would impose unfair expense and duplication of effort upon labor organizations requiring a representative of each of the six crafts on each Adjustment Board, requiring payment of expenses amounting annually to a large sum.

6. Since a National Labor Board has been established, thus insuring a national code of rules and working conditions, an intermediate court should be organized on the same basis, logically and efficiently.

(3) Seniority Rights:

The proposition to deprive men of seniority rights, because of suspension of work, is utterly indefensible if the facts are understood. Seniority rights involve principally, first, the right of the senior employee to be the last laid off in a reduction of forces, the right of the senior employee to have first preference in selection for vacancies in preferable jobs.

The first right is of great importance and has a large community value. It results in encouraging permanent employment, the building of homes and making of useful citizens. The railway em-
